

Much more than a text reader... it's an Integrated Literacy Solution

Kurzweil 3000 supports the concept of Universal Design for Learning as a powerful reading, writing, test-taking, and learning tool that can make curriculum accessible for all students. Students who have the cognitive ability but not the literacy skills to learn from grade-level content, such as students with learning disabilities, and second language learners are among the many student populations that benefit from the use of Kurzweil 3000. As an integrated literacy software, Kurzweil 3000 can read text aloud to students from digital and print formats while providing the scaffolded support necessary to allow individual success.

Kurzweil 3000 Version 12 for Windows features expanded writing support including an enhanced writing toolbar that integrates with most process writing models and smoothly transitions learners from pre-writing through their final draft.

Specific to Kurzweil 3000 Version 12 for Windows Network:

- Text translation on-the-fly with Google® Translate
- Ability to read MathML through a partnership with Design Science, Inc.
- Expanded eContent support through Internet Explorer®
- Additional digital file support for PDF, Daisy 2, Daisy 3, and NIMAS
- A Picture Dictionary containing 1,300+ images supporting English and Spanish
- Human Pronunciations for over 64,000 words from American Heritage® Dictionary
- Comprehensive set of brainstorm and outline writing templates

Specific to Kurzweil 3000 Version 12 for Windows Web License Edition:

- Enables anytime, anywhere learning
- Provides consistent user settings, documents, assignments
- Makes time more efficient and effective
- Informs decision making

Specific to Kurzweil 3000 Version 4 for Macintosh Network:

- Patented dual highlighting
- Quick access to dictionaries, synonyms, syllables and word spelling
- Flexible writing tools such as “check-spelling-while-typing” and audible spell checker
- Text highlighting, annotations, Bubble Notes, voice notes, bookmarks, and extraction of outlines or word lists
